It's as simple as that

Taudio

It's as simple as that

T-audio stands for good audio solutions with a reasonable price. With more than 20 years of experience we bring good functional audio products to the market. Searching for a mixer amplifier or a desktop microphone for affordable prices? You can find them in the T-audio portfolio. Or are you in need of a simple to use Tour Guide system? Check out the LX-series of T-audio. All products in the T-audio portfolio are easy in use, sharply priced and delivered from stock. Ordering on weekdays means next day delivery.

Frequency range between 500-530MHz

Tour Guide Systems

In the T-audio portfolio you can find a professional Tour Guide System which is used as a wireless Tour Guide System, Translation System and Assistive Listening System. The perfect system for assistive listening, museums, factories, historic sites, tourist attractions and training. To complete our T-audio LX-200 serie we have professional accessories available, such as a neckloop for hearing aid, headset microphone or a handheld microphone and charger bags.

Audio Electronics

The T-audio audio electronics at this moment are the TA-120 and TA-240 mixer amplifiers. These mixer amplifiers with a wattage of 120 and 240 have all options that you need (like bass, treble, gain, chime and volume control). The ideal solutions in projects for schools, shops, churches, offices and more.

Comes with a build-in chime

Microphones

The T-audio NPK 372 paging microphone is a table model, 1-zone, PTT/PTL microphone which is supplied with a 5 meter XLR cable.

Our T-audio desktop microphone is a trusted product for many system integrators. This affordable high-quality microphone is often used in schools, offices, industrial halls, churches, museums, gas stations and many other applications. This product is the right choice in combination with the T-audio amplifiers but also with amplifiers from other manufacturers.
